

HP Education

Engage students with an HP Learning Studio

The HP Learning Studio brings state-of-the-art educational technology into the classroom, where students and educators at every level can learn how to use the latest tools to solve real-world problems and craft unique learning experiences.

It's a creative, collaborative space where students explore the design and fabrication of products to achieve practical, measurable results. Hardware and software from industry leaders HP and Microsoft help facilitate the creative process.

What does a Learning Studio help students achieve?

Identify and address real-world problems

Work in teams to solve these problems

Explore multiple possible solutions

Test and evaluate solutions on their own

What purposes does a Learning Studio serve for students?

Prepare students for successful 21st-century careers in science, technology, engineering, arts, and math (STEAM)

Encourage students to inquire, think, investigate, and innovate

Teach students how to work productively in teams

What skills and activities do students practice?

- Design thinking
- 3D design
- Visual communication
- Digital storytelling
- Invention literacy
- Social entrepreneurship

HP recommends Windows 10 Pro.
